ASV VT-100 Forestry Compact Track Loader
24-09-IFB

Addendum 1

November 1, 2024

Q1. *Will a New Holland Forestry Track Loader be an approved equal?*

A1. Without a specific model indicated, we tried to identify the model closest matching the ASV VT-100. New Holland Forestry Track Loaders are not approved as an equal due to the gross horsepower and ground pressure being considerably higher than the ASV model specified. The track width is also narrower than the minimum specified in the bid package.
